# EURO FLOORS...

*Complete Wooden Flooring Solutions...*

Euro Flooring Pvt. Ltd. is one of the largest importers of wooden flooring products in India. Based out of Bangalore, having Pan India presence with offices in every Metro city and retailers across the country. Our product range includes Laminated, Solid wood, Bamboo, Engineered Hardwood, Exterior deck, and Sports Wood flooring. All our products are manufactured in line according to European norms with highest technical specifications and are finest quality, customised to match Indian micro- climatic conditions.

With the single minded motto of providing best in class products with customer satisfaction as our top most priority – we are expanding our footprints in the country and continuously adding new products to our portfolio.

Kaindl, - A step ahead. Since 1897.

100 years of tradition, 100 years of innovation: what began as a small sawmill in 1897 has meanwhile grown into a global player in the field of flooring & interior design. With plants and high-tech installations that set new standards in the wood-processing industry. For EURO it's a gratification to be a part of KAINDL to market & sell their products in INDIA exclusively.

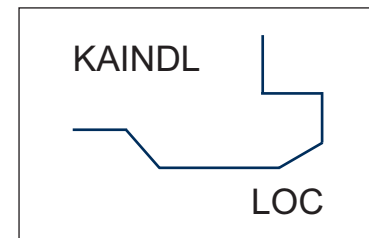

- \* Kaindl is the biggest producer of Laminate Flooring in the world.
- \* Kaindl is the 1 Company to come out with Digital Printing Technology.
- \* Due to Digital printing technology Kaindl has unique designs, which can be customised.
- \* Digital Printing technology helps customers to get 100% same floor as desire in both laminate & engineered.
- \* Specially designed patterned kaindl lock for easy installation.
- \* Good ratio between price, quality and market possibilities.
- \* Various decors to choose from.
- \* Easy to clean and maintain.

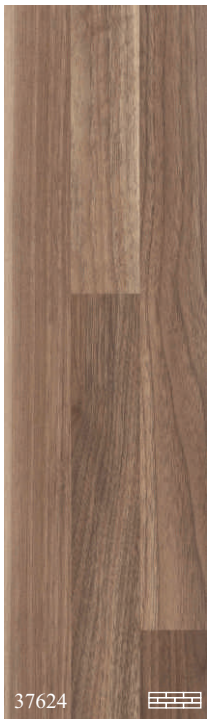

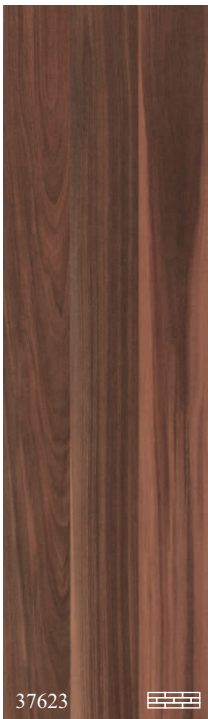

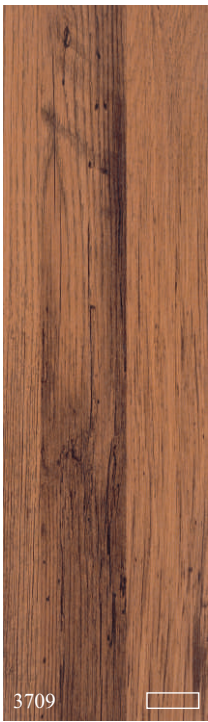

Environmental protection meets quality of life. The carrier bases for our floors are made exclusively of wood from PEFC-certified forests. And the „GREENGUARD“ label guarantees the high quality of the air in your rooms.

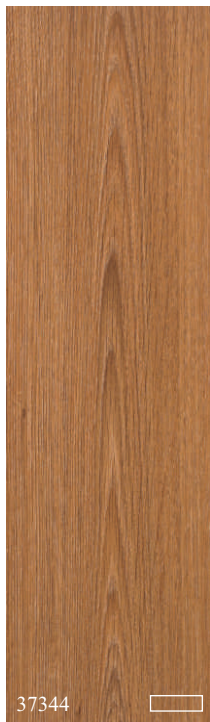

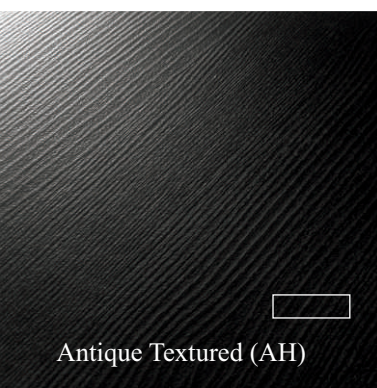

PEFC: Programme for the Endorsement of Forest Certification the world's largest forest certification system.

## 100% Matching Profiles

Skirting: Used to covers the expansion gap between floor & wall.

Beading: Used to cover the expansion gap between furniture & Flooring. It is also used to cover the gap between wooden partication & the floors.

T Profile: Used as a threshold in doorways or as a transition strip where your wood floors meets floor or any other surface (i.e., carpet, tiles etc.,) of similar height. T Profile can also be used to change the direction in which the floor is layed & to cover the expansion gap.

Stair Nose Profile: Used to cover the front edge of a stair tread or step. It also covers the expansion gap.

End Profile: Used to finish the floor at vertical surface such as exterior door thresholds, sliding glass doors, raised hearths, marble sills. It also covers the expansion gap.

Reducer Profile: Used as a transition from the height of the sub-floor to the height of your wood floor. It also covers the expansion gap.
